

# READING PODS

## DESCRIPTION:

The Context Educational Line serves as a set of systems for the modern-day classroom. The Reading Pods system provides a comfortable environment to enhance children's imagination in the world of reading. The Reading Pods also incorporate an element of "Play" which will encourage children to read for hours. In summary, The Reading Pods complement and elevate the teaching process, therefore, classrooms will be able to provide lessons more effectively.

The Reading Circles consists of (5) five quiet reading and comfortable spaces for children. The standard configuration is (3) three circles at the base and (2) two circles at the top. The exterior of the circles are laminated. The interior of the circles will have 3" thick upholstered foam covers. Upholstery is of leatherette material which is washable and attached with velcro. (2) Two Wooden Ladders are painted/coated to match the Reading Circles. Installation is required. Reading Circles are to be floor mounted directly onto concrete surface. Installation may take more than an 8 hour shift depending on site conditions. Recommendations are to use 1/2" x 4" Concrete Anchors. Colors are optional.
